

# Sending team / group specific messages from your phone

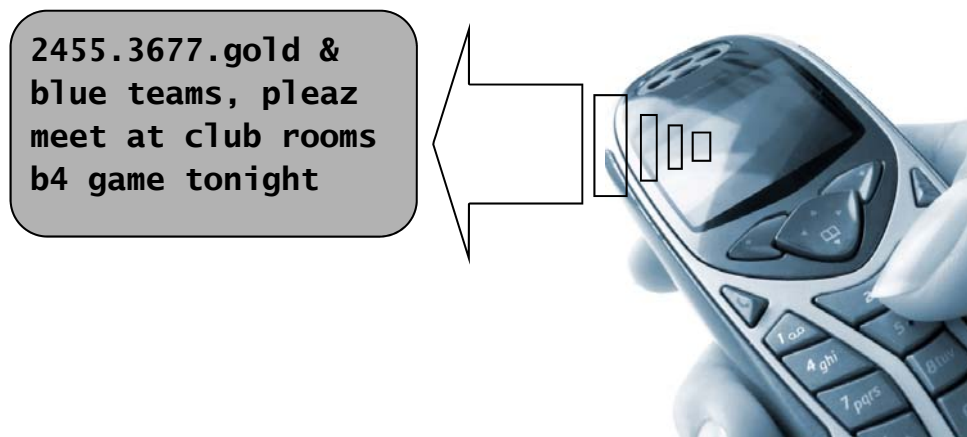

If you are a message sender for more than 1 team/group, then sending a text message to **63366** will distribute it to all those teams. Sportcheck's fantastic features allows you, however, to send messages to a specific team or a group of teams from your phone. All teams have a code, so by simply typing in the team(s) code followed by a full stop before your message means that when it is sent to 63366, it will be distributed to those teams. You can have as many team codes as you like. See below for 2 examples.

**Eg. 1:** A message for the gold team only, whose code is "2455":

**Eg. 2:**

A message for the gold & blue teams, whose codes are "2455" & "3677":

**NOTE:** Team codes can be replaced with more applicable names. Click on the "contact us" link on the Sportcheck website and we will get this set up.
